DALE®

Dale® Binder with EasyGrip® Strip

The **Dale Abdominal Binder**, specifically designed for post-operative use, is made entirely of Dale's Exclusive Stretch Material, which permits hook and loop closure at any point for evenly distributed compression. This stretch compression allows for sudden lung expansion, which is necessary for coughing and deep breathing therapy.

Key Benefits Include:

- >> EasyGrip® Strip holds drainage bulbs in place.
- >> Evenly distributes compression.
- >> Facilitates deep breathing.

DALE®

Dale® Binder with EasyGrip® Strip

Studies¹ show that a post-operative regimen that includes the Dale Abdominal Binder with EasyGrip® Strip encourages better pulmonary function, allows earlier ambulation, and alleviates incisional pain.

PERFORMANCE [The Dale Binder in the post-operative regimen](#)

The Dale Abdominal Binder with EasyGrip® Strip splints the wound and encourages patients to breathe deeply, turn in bed, cough to clear their lungs, and ambulate immediately following surgery. As a result, there is less risk of sedentary complications such as atelectasis, pneumonia, and phlebitis.

Applications

The Dale Abdominal Binder with EasyGrip® Strip provides support and comfort following procedures such as:

- Cesarean Section
- Hysterectomy
- Liposuction
- Gastroplasty
- Abdominoplasty
- Childbirth
