

Security You Can Count on When Your Patients Need It Most

**COVID-19
Product
Reminder**

ALWAYS FROM DALE

During these unprecedented times, you don't want to worry about whether the medical products you use will perform as expected. With Dale, you don't have to. Dale products have been providing security without compromise for more than 50 years.

Dale offers a range of products to help you provide the best care for your COVID-19 patients.

Our enteral products include the **Dale NasoGastric Tube Holder** and **Dale ACE Connector**[®] to keep a 100% closed system for feeding.

Our vascular products include **Dale Bendable ArmBoards**, **Dale Transducer Holder**, **Dale Hold-n-Place**[®] **IV Securements** and **IV-ARMOR**[®] — all for uncompromising protection and comfort.

Finally, our low-profile **Dale Endotracheal Tube Holders** secure the ETT in supine, prone and lateral positioning.

Visit www.dalemed.com for more information on each product and to request evaluation samples.
